EVENT: ODOT Transportation Information Mapping System (TIMS)
In June of this year, ODOT launched a major upgrade to its transportation data portal, TIMS – Transportation Information Mapping System. With this enhancement, TIMS is now an even more robust tool for creating maps, sharing information and retrieving data about Ohio’s transportation system. Besides more data and mobile device access, the upgrades include better project search tools, standard PDF maps, and improved performance and functionality.

ODOT Geographic Information Mapping systems Administrator Ian Kidner will be presenting on the new features and information available in the upgraded TIMS, specifically as it relates to roadway and other infrastructure management features.
