May 29, 2013 MEETING ATTENDEES, PDH Credits = 0.5

TOPIC: **American Bridge provided a tour of the construction yard where the Columbus Road Lift Bridge Lift Span Truss is being assembled. The $34 million rehabilitation includes a complete replacement of mechanical and electrical components, as well as improvements to the towers, abutments, and piers. The through-truss span will be floated down the Cuyahoga River and lifted into place after erected.**

SPEAKER: **Mr. Matt Brownlee, Project Manager, American Bridge Company**
